## WORK EXPERIENCE

**General Assembly** - Web Developer      San Francisco, CA      January 2014 - March 2014

- <http://d2jive.herokuapp.com/>: Co-lead the development for this two person project. D2Jive is a live music event discovery service. Users can explore local venues and their respective listings. There is the added feature of listening to the headliner and supporting artists through an embed Spotify playlist.
- <https://idealme.herokuapp.com/>: Lead on the front-end development for this group project. The goal of the project was to create a simple app for Senior Citizens to work with a social worker to track their intellectual, social, and health growth. The idea came from my mom who is the Social Services Director at the San Francisco Senior Center at Aquatic Park.
- <http://route-elevation.herokuapp.com/>: Built a bike and running route planner that allows the user to specify a desired elevation.

**Thrillcall** - The Site and Partner Administrator      San Francisco, CA      January 2012 - December 2013

- Daily management and updating of concert and venue data for the website and mobile application.
- Updating and maintaining current business relationships with ticket partners. In addition, created new partnerships to further build up Thrillcall's concert and artist data.
- Managed a team of admins to ensure that Thrillcall's data was up to date.
